

Hupac connects networks in Europe and China

New shuttle train Ludwigshafen ↔ Malaszewicze/Brest

Hupac is happy to announce a new feeder train that links the European intermodal network to the trains running to/from China in synergy with the One Belt, One Road strategy. The new Hupac train connects centrally located Ludwigshafen KTL terminal with the hubs Malaszewicze/Brest on the Polish/ Belorussian border.

The Ludwigshafen ↔ Malaszewicze/ Brest train was launched in June 2017 with 1 roundtrip per week during the start up phase. It offers attractive A/D and A/C running times. From KTL terminal, shipments can be moved via rail to dozens of destination in Europe, while the Eastbound trains will take you to China in close collaboration with Chinese City Platforms.
