Solve the 3Y complexity:

Ceneri 2020 is the chance for change.

- Safeguard capacity in case of trackworks & incidents
- Coordinate timetables & establish one contingency in case of incidents
- Raise weight to 1800 t -> 13% capacity
- ▶ Lengthen trains to 740 m → 23% capacity
- → 4 meter corridor → 50% market
- ► Increase digitalization (ETCS) → 20% capacity
- ► Increase $v_{aver.}$ 50-75 \rightarrow 50% capacity

Thank you!
