# Terminal Antwerp

The Terminal Antwerp, located in northern Belgium and inaugurated in 2010, is an important hub in the European intermodal network.

The city of Antwerp, thanks to its strategic location, is indeed one of the most important intersection points for the European freight transport with high traffic volumes both in maritime and continental transport.

## Technical data

Surface	53,000 m <sup>2</sup>
Storage surface	16,000 m <sup>2</sup>
Crane module	1
Gantry cranes	3
Max. crane capacity	40 t
Type of units	Containers from 20' to 45' Swap bodies Semi-trailers
Transhipment tracks	5 x 620 m
Max. capacity	10 train pairs per day
UIC code of Antwerp railway station	88 24920 1

Thanks to this terminal and its intermodal services, high traffic volume can be managed ensuring advantages for the environment, the society and the economy.

The terminal is situated in the port area of Antwerp and is directly connected to the shunting station of Oorderen. The Terminal Antwerp offers daily connections to Switzerland and Italy.
