Valid as of: 01.01.2021

<b>Shunting and services</b>	<b>Price</b>
Block train terminalisation The tariff is applied and accounted for both the entry (incoming trains) and exit (outgoing trains) to and from the freight terminal/junction	EUR 360 (for each operation)
Locomotive coupling/uncoupling	EUR 17 (for each operation)
Application/removal of rear-end signals	EUR 13 (for each operation)
Removal/addition of a wagon or a set of adjacent wagons	EUR 103 (for each operation)
Provision of locomotive machinist (in case the railway company has no staff with knowledge of the railway system)	EUR 411

1. Tariffs for services performed outside the regular working hours (please see point 5) will be increased by 10% wherever possible.

Any extra costs, incurred by TPI for additional trains which lead to changes in the TPI organisational structure or variations in the planned operation of trains that cause extra movements (e.g. train cancellations, holiday, etc.), will be charged.

2. Payment is due within 30 days of the invoice date.
