> 72 hours	+ EUR 8 + EUR 8 for each following interval of 24 hours	+ EUR 10 + EUR 10 for each following interval of 24 hours	+ EUR 12 + EUR 12 for each following interval of 24 hours

Bonus/Malus rules

1. The calculation of the hours regarding BONUS and MALUS starts from the moment when the consignment is actually ready for collection at the terminal.
2. The period of BONUS refers to load units which are collected within 24 hours since they are ready for collection.
In the calculation of the BONUS the opening hours of the terminals are taken into consideration.
3. The period of MALUS starts after 48 hours since the load units are ready for collection. There are calculated the number of hours passing between the readiness for collection at the terminal and the actual collection.
Its calculation is based on the real storage time, Sundays and holidays included, and it is not interrupted by the closing of the terminal.
4. Calculation of the MALUS: if the consignment remains stored at the terminal for more than 48 hours, the MALUS amounts, referring to the «ITU» column in question, must be added up (see table «Bonus/Malus tariffs»).
5. The «BONUS/MALUS» rules are valid for all consignments, i.e. empty load units as well as the ones to clear through Customs.
For vehicles containing dangerous goods (including empty not washed tanks) no storage possibility is foreseen, subsisting the obligation of immediate collection. Eventual extended storages will however be subject to the MALUS rules and further penalties.
6. All prices are intended VAT excluded.
7. We reserve the right to introduce changes at the prices, upon notice.
